

Punkbuster Update Punkbuster Update

2005-02-05 03:36 von Kelli (0 Kommentare)

Die Punkbusterserverversion ist aktualisiert worden und zwar auf die Version 1.134.

Release Notes for PB Server v1.134:

the pb_sv_task command no longer requires quotes around the third [command] parameter when spaces are embedded

now kicks players with "UNKN" GUID status; note: admins may set pb_sv_lan and/or pb_sv_lanmask appropriately for LAN players who would otherwise receive UNKN GUID status
